

- ⚠ 3-terminal capacitor provides off-cycle heat.
- ⚠ This wire omitted and 2-terminal capacitor used on models 18MA and 18MA1.
- ⚠ See alternate thermostat sheet.
- ⚠ Not all outdoor motors employ capacitor. Motors without capacitor are two-wire and hook directly to T2 and T1.

Models
18MA, 24MA, 10MA, 30MA1
